

EvoClean Base

LONG-SLEEVED BASE LAYER FOR CONTROLLED ENVIRONMENTS

Non-woven undergarment designed to limit contamination in clean rooms.
Lightweight, comfortable and compatible with GMP requirements.

Effective barrier against particulate and microbiological contamination

Comfort: lightweight, breathable fabric, suitable for extended wear

Double partial vacuum packaging with easy-tear

Elasticated cuffs and ankles: optimal support, compatible with wearing a wetsuit

Complies with the recommendations in Annex 1 of the GMP. Part of the contamination control strategy
